6.3 Ventilation	5	10. Start-up procedures	11
6.4 Chemical load	5	Commentary 1 – Safety	12
6.5 Internal pressures and explosions	5	Commentary 2 – Dynamic effects of wind and earthquake	12
6.6 Mechanical loading due to movements of the outer shell	5	Commentary 3 – Elastic stability	13
7. Materials	6	Commentary 4 – Chemical load	14
7.1 Brickwork types	6	Commentary 5 – Thermal Stresses	15
7.2 Type of bricks	6	Commentary 6 – Reinforced brickwork linings	16
7.3 Types of mortars	6	Appendix 1 – Literature review	18
7.4 Selection of brickwork type	6	Appendix 2 – Qualification test methods for bricks and mortars	18
7.5 Required properties	7	Appendix 3 – Typical insulation systems	19
7.6 Methods of measuring characteristic brickwork design properties	8	Appendix 4 – Typical brickwork liner support systems	21

PART B: BRICKWORK LININGS

FOREWORD

This document has been prepared by the CICIND Brickwork Liners Committee, initially under the chairmanship of M. O'Sullivan (Ireland). In 1989, following Mr. O'Sullivan's retirement, B.N. Pritchard (Great Britain) took over the Chairmanship. The committee members were:

M. O'Sullivan	(Ireland) – Chairman (1985-9)
B.N. Pritchard	(Great Britain) – Chairman (1989-91)
H. Bottenbruch	(Germany)
G. Edgell	(Great Britain) – (Part time)
K. Eskjaer	(Great Britain) – (Part time)
F. Henseler	(Germany)
D. Hughes	(Great Britain)
G. Maddison	(Great Britain) – (Part time)
M. Poli	(Italy)
A. Ratto	(Italy) – (Part time)
H. Rawstron	(Great Britain) – (Part time)
S. Richart	(USA)
R. Snook	(USA)
L. Van Chastelet	(Netherlands)
H. Van Koten	(Netherlands)

In addition, many valuable contributions were made by the members of CICIND.

The document was accepted for publication by the CICIND General Assembly, held in Atlanta, Georgia, USA on April 25, 1991.
